

Exciting business opportunity as a going concern.

We are looking for suitable persons interested in operating or purchasing our **Spuddy Buddy jacket baked potato van and business.**

Spuddy Buddy is a mobile jacket baked potato food van and business operating in Regional and Central Western NSW .

Our eye-catching van continues to be hugely popular at festivals, ag shows, field days, NYE celebrations, expos and special events. It's the healthiest meal you can find at most of those events and fantastic value for money. The product sells itself too - everybody loves a spud!

The van is equipped with a state of the art UNOX Cheftop oven - which is not only an excellent way to bake potatoes - but also opens up the potential for expanding the current operation into a comprehensive catering business.

A warming cabinet further supports the different catering options that could be applied.

Many of our bookings are now established as regular events on the calendar, with requests and enquiries continuously coming in through our website, www.spuddybuddy.com.au. Bookings are currently confirmed up until mid-November 2017 . Expressions of interest for 2018 events such as the ABBA Festival have also been submitted.

This business can be tailored to suit so many different situations...
